

CAXT Connection set

Technical sheet Set CAXT V1

Specifications

Pack of complete connection kit for self-regulating heating cables.

This kit includes installation instructions, an M20 cable gland with its nut, an oblong gasket, and two pieces each of 3/1 and 12/4 diameter heat-shrink tubing for the cable head and end seal.

The heat-shrink tubing has a minimum shrink temperature of 120°C.

The permissible operating temperature range for the heat-shrink tubing is -55°C to +105°C.
